

TARASAFE H2O is a hardwearing slip resistant vinyl floorcovering, with a vinyl wear layer containing deeply inlaid mineral particles and coloured elements for a subtle and soft design, achieving 1b classification according to the DSDC. Its' dedicated emboss enhances its anti-slip performance and the Sparclean® surface treatment ensures easy maintenance.

TARASAFE H2O is an ideal solution for those areas where enhanced slip resistance with shod and barefoot is required for both barefoot and shod use, such as showers, wet rooms, bathrooms & changing areas. The specific embossing together with the mineral particles delivers a Class B barefoot slip resistance rating (according to EN 16165:2021–A) and R11 shod slip resistance rating (according to EN 16165:2021–B).

It is reinforced with a glass fibre grid in sheet form for improved. According to ISO 22196.

It does not contain any heavy metals or CMR 1&2 and is 100% compliant with REACH. This product is 100% recyclable and contains 29% recycled content, 21% coming from production waste and 8% post-consumer waste.
