MURAL CALYPSO is a multilayered wall covering in 2m width roll and with a B-s2,d0 fire classification according to EN 13501.

It is hot welded with CR41 welding rods for a perfect water tightness. It is made of a printed transparent wear layer and a coloured under layer for a better aspect of the welding. This layer comprises up to 30% of recycled products.

It does not contain any CMR 1 & 2 component and is 100% compliant with REACH.

It is 100% recyclable.

This wall covering is specially recommended for wet room areas and makes the installation in angles easier thanks to its flexibility.

The Shower System is compliant with most laws on "access for all" thanks to the installation in shower without tray.
