

RIGID 30 LOCK is a synthetic, decorative, flexible, floorcovering available in 3 different sizes to meet customer needs. It consists in a 0.3mm thick trans-parent wear layer, a design film and a compact underlayer. It is compressed and grained at high pressure.

It benefits from surface treated (PUR+ Matt) with 4mm thickness ,providing good cleaning characteristics and resistance to scratching. Make maintenance easier and eliminating the need for initial polishes.

RIGID 30 LOCK is 100% recyclable and 100% REACH compliant. The product emission rate of organic compounds is $< 10\mu\text{g}/\text{m}^3$ (TVOC < 28 days – ISO 16000-6).
